# SEAtS Scheduler **Hybrid Academic & Placement Timetabling**

ABOUT SCHEDULER:

SEAtS Scheduler simplifies the planning of blended learning classes with all the tools you need to import, update and create new classes whether you want to quickly populate a semester of classes with pre-populated Team/Zoom links, schedule work experience, or deliver personalised timetables to students.

See what customers are saying:

"SEAtS Scheduler has made improvements across all our stakeholders; from students being notified of immediate timetable changes, faculty engagement with technology and administrative time benefiting from scheduling tasks become more efficient."

– Ian Fraser, Principal & CEO, ESO

Key Features:

SEAtS Scheduler has reduced the time it takes to create and share a timetable from **2 weeks to one day**. Lecturers and students no longer need to contact faculty for information about their attendance and timetable as it is now available on their smartphone.

- Import and update legacy timetables for blended teaching and learning.

- Update room capacities for social distancing.

- Plan and create timetables for blended and hybrid teaching and learning.

- Schedule work experience, clinical placement, apprenticeships and more.

- Add Teams and Zoom access details to events with a mouse-click.

- Deliver personalised timetables to students in the SEAtS App with live in app updates.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
