

Windows Virtual Desktop

Become ready for remote work in less than a day!

COVID-19 has impacted the lives of people around the world, forcing many organizations to consider closing offices and asking their employees to work from home.

What is WVD?

Windows Virtual Desktop (WVD) is a comprehensive desktop and app virtualization service running in the cloud. It is the only VDI that delivers multi-session Windows 10, optimizations for Office 365 ProPlus, and support for Remote Desktop Services (RDS). Integration with Azure AD and security services.

Price starts from only 6 Eur monthly per user workspace.

Why customers use WVD service?

Main benefits are:

- Deploy and scale in minutes
- Optimization for Office 365 ProPlus
- The only multi-session Windows 10 experience
- Multiple compute profiles and usage workloads available
- Provided as a service, managed by Microsoft and Partner.

No need for additional licence purchase for users with :

- Microsoft 365 E3/E5
- Microsoft 365 A3/A5
- Microsoft 365 F3/Business Premium
