

eGroup + citrix™ + Microsoft Azure

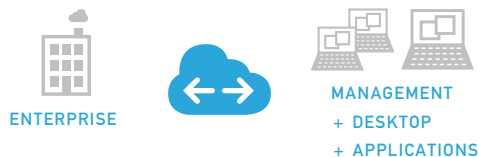

PRODUCTIVITY WITHOUT LIMITS

Ensure user access to applications and data they need, on time, all the time.

EXTEND TO THE CLOUD

Provide unified, integrated experience for both Administrators and End Users between On-Prem and Cloud.

HOST IN THE CLOUD

Flexible deployment of extending or hosting, managed by IT.

CLOUD AS A SERVICE

Shift CapEx to OpEx for more consistent expenditures and walk away from hardware budgets.

YOUR BUSINESS NEVER SLOWS DOWN

Whether your apps are on-prem or in the Cloud, your app runs where it needs to with a single management interface.

FLEXIBLE

The capacity you need when you need it. Expand or contract on demand, scale up to meet the challenge and scale back to reduce the cost.

SECURE

Information never leaves its secure location in your data center or cloud. Seamless backup, recovery, and intrusion detection ensures it is always available.

RESILIENT

Your data is effortlessly protected in redundant locations across the country, continent and globe.

PRODUCTIVE

Your users are your business, keep them productive with a seamless user experience on-premises, in the cloud and on the go.

WE KEEP YOUR USERS EFFECTIVE. MORE RESULTS AND LESS EFFORT.

Limitless Productivity

Quickly deploy
1000's of Apps
& desktops

Leverage the power of Microsoft Azure to quickly and easily deploy hundreds or thousands of applications and desktops as needed without the burdens of infrastructure management.

Erase slow
infrastructure
provisioning

Don't let new applications or business use cases be delayed by slow infrastructure provisioning. With Azure, quickly, securely and predictably provision the necessary resources to help with use adoption.

Offload
management
requirements

Utilize Citrix Cloud to remove management overhead of Citrix Virtual Apps and Desktop environments and focus only on the application workloads.

Resource like
you never left
the office

Use Citrix Smart Scale in the Citrix Cloud to predictably turn up and down resources based on specific criteria to help with resource utilization.

DESKTOP APPLICATIONS WITH EASE
