

Teams Consultancy

6-12 weeks

SMP Solutions

What do the business get from modern workplace?

Always Available – Application and data access without a VPN

Better Customer experience – Higher employee productivity and satisfaction

Scaleable Knowledge Sharing – Save and publish meetings with Microsoft Teams and Stream

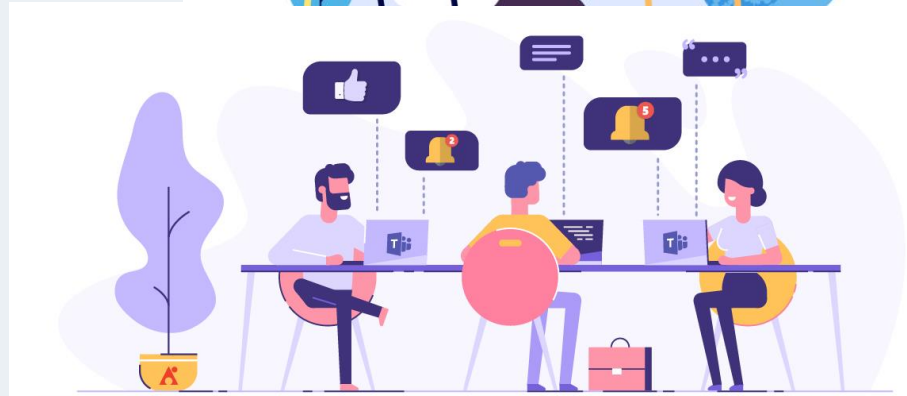

IT security – Cloud services that can scale, as well as integrate with advanced security controls and compliance capabilities.

Reduced IT Spend – Reduced vendors, applications and 3rd party integrations

Accessibility – Team productivity across every device

What Is Microsoft Teams?

Microsoft Teams is a **next-generation calling** and **meeting experience**, built on Microsoft 365's hyper-scale, enterprise-grade cloud. The **Teams** platform is part of the **Office 365** suite and securely combines **workplace chat**, **meetings**, **notes**, and attachments for an intuitive, collaborative experience.
