

# Collaborative Apps Workshop

## Achieve more with Teams Platform

Hybrid work transformed the way many of us run our businesses, with leaders working tirelessly to ensure their people could remain productive while logging in virtually. To stay productive, your teams need to be able to accomplish their work and collaborate virtually anytime, anywhere while enabling apps to assist them to achieve more using the Microsoft Teams Platform which is the combined Teams and apps employee experience.

### We can assist!

You're invited to our exclusive **Collaborative Apps Workshop**, where consultants from **CloudAssist** will take a look at your unique business goals, workflows, and apps with you, then help create **one central hub for all your teamwork in Microsoft Teams!** Our experts will guide you through ways to extend and customize your Teams workspace, adding and connecting all the apps your people need to get their work done.

Then, we will then design a tailored roadmap to get your apps up and running - so you can start taking advantage of the power of the Microsoft Teams Platform right away.

### Whatever your business needs, an app in Teams can help

**Get started today** with an assessment of the pain points and challenges to understand your business needs and goals

**Accelerate business outcomes** by using low-code solutions, or building a custom app tailored to your needs.

**Stay secure** as applications, data, and communications are protected across Microsoft and partner services.

### Why CloudAssist?

With extensive solution development experience, **CloudAssist** can help you improve workforce productivity through automation of key business processes, leveraging the Microsoft Teams platform. We will work with you to understand your environment and identify opportunities to help you achieve continuous business value from your Microsoft Teams investment. With industry and technology experience, you can count on us as your trusted partner in your transformation journey.

### We'll work with you to:

- ✓ Determine how to streamline processes and improve productivity and collaboration.
- ✓ Identify and prioritize use cases for key requirements and challenges.
- ✓ Develop an implementation plan and next steps for achieve your desired goals.

Contact us today to get started!
