

ENGAGING SIMULATION WITH DEEP EDUCATIONAL CONTENT

EDUardo is an online business simulation platform which helps to learning and understanding of **business and management skills**.

EDUardo offers a state-of-the-art business simulation with integrated content. The solution supports both **facilitated** and **individual e-learning** programs. Beyond educational use, it can also support **evaluation of leadership skills** and **critical thinking**. The simulation can easily be **integrated into learning management systems**.

EDUardo offers content in the form of case studies which can be easily integrated into **learning projects at corporations, training institutions and business schools**.
