You feel safe at work—physically, mentally and emotionally. You feel uniquely valued and are treated equitably and with dignity.

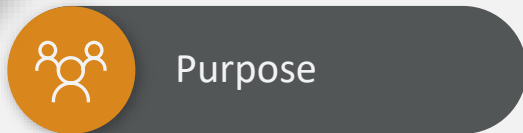

You belong as a trusted, integral member of a diverse community. You have high-quality relationships with your colleagues, characterized by mutual respect.

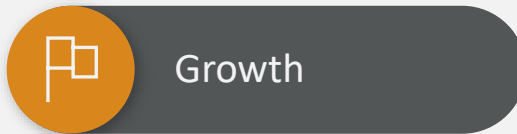

You can easily find information, people, tools, and resources you need. You are empowered to make decisions and what's required for success.

You know what success looks like and what to prioritize. You know when you're on track and get feedback that helps you improve.

You're part of something bigger than yourself. Your work serves others and has a meaningful impact.

You get what you need to maximize your strengths, learn new skills, broaden your experience, and progress toward your goals.
