

CLOUD DATA PROTECTION

FOR G SUITE & OFFICE 365

About Spinbackup

Founded in 2016, Spinbackup is a cloud data protection company based in San Francisco. We protect G Suite and Office 365 organizations around the world against Data Leak & Data Loss in the cloud.

Our Value

Spinbackup helps organizations gain more immediate control and visibility over data security by providing an additional layer of new generation backup and protection beyond the capabilities of a typical cloud service provider can offer.
