# DATABEATOMNI

Difficult Made Simple!

What is DatabeatOMNI?

DatabeatOMNI provides you with everything you need to display great content, on as many screens as you want to — without complex interfaces, specialist training or additional procurement costs.

Whether you need digital signage for advertising, internal-comms or entertainment, DatabeatOMNI makes it easy. With simple user controls and a single common-sense interface, anyone can publish high-quality content in seconds.

Creative content

DatabeatOMNI gives you the ability to create publishable content using a variety of media including animations, video, images and web pages. You decide on the message to suit your audience and the format it's delivered in.

Perfect Timing

Plan when and where you want to show your content for maximum effect. Our easy-to-use scheduling tool puts you in total control of timing, so you'll never miss the perfect opportunity to connect with your audience again.

Dynamic Content

Why limit your display to the content you create? Modern consumers are used to receiving a constant stream of information in real-time and DatabeatOMNI helps you cater to them, with optional widgets such as RSS feeds, weather updates, and social media newsfeeds.
