Ready to upgrade your last mile delivery?

Walmart GoLocal is a delivery service for businesses looking to offer local delivery to their customers, with the speed and service they've come to expect.

Our clients enjoy

White-label delivery

Own your customer relationships end-to-end

Extensive US coverage

We scale wherever your business grows

Speed & cost efficiency

To help your business thrive

Expert service

The same careful handling we give to our Walmart customers

Technology that suits your scale

API integration

Your commerce platform automatically pings us the delivery details. Built for larger enterprises.

OR

Book Delivery Portal

Schedule deliveries on-demand with our secure, web-based application. Fit for small businesses.

How it works

01

A customer places an order through your owned commerce channels

02

We receive your delivery request

03

A driver picks up the order at your site location

04

The driver completes the delivery to your customer

Delivery capabilities for all businesses

From auto parts to apparel, from groceries to general merch–even oversized items.

Flexible delivery options
- Express
- Scheduled / Slotted
- Same day / Next day

We're built for

Retailers and brands

National, regional and local merchants across a wide range of categories

Shipping aggregators

We power deliveries from 3rd party warehouses and micro-fulfillment centers

E-commerce software solutions

We integrate with e-commerce and logistics platforms to seamlessly unlock delivery capabilities for merchants

We're currently serving clients in

- Clothing & apparel
- Restaurants
- Floral
- Automotive
- Consumer electronics
- Warehousing & fulfillment
- Grocery & alcohol
- Hardware & DIY
- Delivery orchestration

Count on the reach & reliability of the world's largest retailer with Walmart GoLocal
