

*The 'Next Normal Workplace' arrives with challenges – Digital Disruption, Rising Next-Gen Workforce, Hybrid Work Model, and The Great Resignation... Viva Insights helps organizations understand their employees' working behaviors to improve productivity, well-being and engagement.*

### Why FRONTIS ?

We have first-hand experience in implementing Viva Insights for customers in various context and scale. Our expertise in management consulting and technology can ensure the system go-live with full business understanding, as well as leverage the customer journey to capture the opportunities for advanced data analytics, AI solutions and beyond...

### What We Do

#### Consulting

Craft actionable strategies for business and technology to solve complex problems

#### Data Analytics

Drive business decision making to create impacts with data

#Power BI #Azure SQL

#### AI Solutions

Empower business transformation with cutting-edge technology

#Azure AI+ML #Azure IoT

### How FRONTIS can help customers in this journey...

Explore	Kick-Start	Analyze	Expand
Drive understanding & buy-in with executives and key stakeholders	Set up & configure Viva Insights to start usage in the organization	Provide business analysis & suggest actions under "Analytics as a Service" model	Broaden & deepen analysis with customized dashboards connecting other data sources
1-2 weeks	4-8 weeks	Every 2-4 weeks	2-4 months

Each service can be provided as a standalone package or combined with others.

## Viva Insights Explore Package

---

*Drive understanding in Viva Insights & gain buy-in with executives and key stakeholders*

*Key Benefit:  
Align business objectives and define how Viva Insights can address*

### Engagement Context

---

- Executives have heard about Viva Insights and would like to explore how this technology can be used in the organization to match the needs and context
- FRONTIS can help accelerate the “crystallization” process aligning the vision and business pain points as well as how Viva Insights can support this

### Key Activities

---

- Conduct a half-day workshop with customers to explore the product and generate use cases specific to the business needs
- Introduce Viva Insights including tool capabilities, success stories & case studies, etc.
- Set up a demo to showcase the Viva Insights dashboard samples
- Duration: 1-2 weeks
