

COMARCH

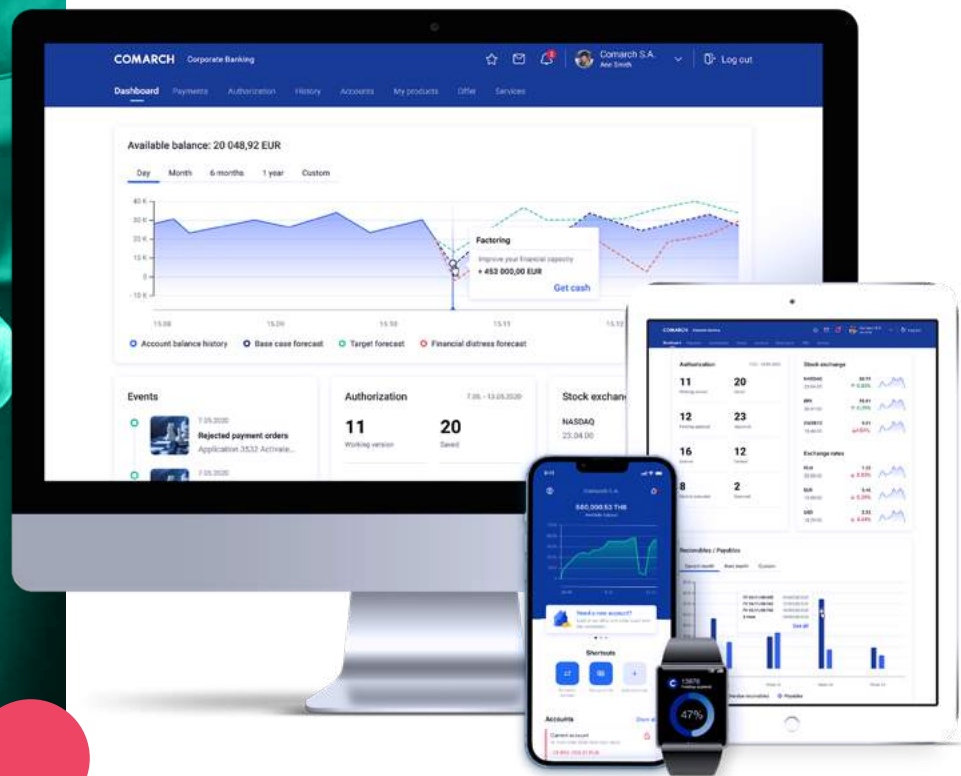

Comarch Open Platform

Shape your digital future

Tired of inflexible systems? Open your bank for more.

Reach beyond problematic architecture & constant error fixing and respond to the needs of your most demanding clients easier than ever. With Comarch Open Platform, you can now build your own unique banking environment using our Framework – a set of proven tools for creating front to back solutions including built-in DevOps processes.

Use your internal IT & business potential to focus on what matters most: delivering great value every day.

Open Platform for Business Clients

Unique solution through co-creation

Work in multiple parallel streams thanks to a **microservice- and micro-frontend-based architecture**. Take advantage of tried-and-tested DevOps tools and processes for a smooth deployment experience.

Technological advantage & proficiency

Rely on our experience in digital banking. Adopt **best practices in a cloud-native**, microservice- & microfrontend-based design, enriched by a set of proven tools, processes, and real-world know-how that come bundled with Comarch Open Platform.

Quick, ready-made business modules

For the ultimate speed, deploy **ready-made, feature-packed business modules** for cash management, trade finance, loan origination, factoring, and other products. Bridge the digital gap fast and focus on building extra value.

Top client satisfaction

Automate your customers' everyday business activities thanks to embedded data analytics and extensive self-service features. With the ability to easily integrate internal apps and fintech solutions into the platform, make delighting your clients a routine.

Comarch digital banking at **BNP Paribas**

We are committed to a modern architecture based on microservices, enabling flexible management of individual elements of the system to take full advantage of cloud solutions. We also need engines that support the processing of large data volumes while having the needs of the largest corporations in mind. We want to build the most technologically advanced banking platform on the Polish market.

Łukasz Zieliński

Managing Director of the Corporate Banking IT Development Division at BNP Paribas Polska
