Mphasis Assessment Services
SAP Applications Migration to Azure

From assessment to execution, a complete roadmap for seamless transformation

Mphasis SAP Practice

With a 400+ strong team of SAP consultants (technical, functional and administration), Mphasis provides SAP implementation, upgrades, support, migration and Technology Advisory Group (TAG) driven assessment services. Along with Cloud, Digital and Infrastructure practices, we deliver end-to-end SAP application migration services from on-premise to cloud.

Our SAP Administration consultants are also certified on Microsoft Azure – expertise that enables the right solutions, best suited for individual customer requirements.

WHAT WE OFFER

Mphasis offers a 3-phase assessment for enterprises embarking on their digital transformation journey.

- Phase1 — Discovery
- Phase 2 — Scoping
- Phase 3 — Walk-through

We identify the SAP landscape and possible integration requirements, DR / HA set-up, Azure migration options, etc.

Features & Critical Success Factors

- Extensive SAP migration experience
- Proprietary assessment tools and templates
- Detailed assessment report
- Proven migration strategy
- Minimum system downtime
- Post-migration support

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
