Mphasis SAP practice

- 400+ SAP consultants in Functional, Technical and Administration with skills, knowledge and experience of Cloud migration.

- 25+ MS Azure-certified SAP professionals

Extensive assessment & migration experience

More than 100 man years of experience in providing assessment and migration of SAP application

Well-equipped for assessment

Frameworks and in-house developed tools and templates for assessment

Migration readiness

Ready runbook for different migration scenarios

Greenfield Implementation on Azure

- This engagement involved Greenfield implementation of SAP S4HANA and SAP Analytics Cloud on Azure

- Mphasis provided assessment for Cloud selection, migration strategy and execution of implementation in scheduled time

- Also included integration services for applications on on-prem and Cloud environment

[S4HANA implementation on Azure cloud]

20% cost reduction by implementing S4HANA in Azure cloud

[Implementation of SAP Analytics Cloud (SAC) on Azure]

30% improvement in Employee performance due to Analytics Cloud

Carve-out on Azure for retail manufacturer

- Mphasis SAP practice carved-out client's business from parent company.

- Engagement involved Cloud migration assessment and strategy, SAP and non-SAP application disposition strategy, data migration, testing and managed services

- As part of managed services, Mphasis continued using Azure tools for monitoring and back-up

[Over 20+ SAP and Non-SAP applications migrated to Azure]
Based on applications, different disposition strategy was used for Azure migration

[Reduction in TSA cost]
Migration/carve-out completed in time to avoid additional TSA exit cost of approximately 1M per day
