Start here

Decide if this is the right certification for you

This certification is a good fit if your responsibilities include:

- Recommending, planning, and implementing Azure networking solutions.
- Managing networking solutions for performance, resiliency, scale, and security.
- Deploying networking solutions by using the Azure Portal and other methods, including PowerShell, Azure Command-Line Interface (CLI), and Azure Resource Manager templates (ARM templates).

First, make sure your skills are up to date.
