

Shaping Cloud

Azure Assessment & Migration

Azure Asses, Migrate and Modernise Service

1

Planned

We assess your estate, produce a migration strategy and create pragmatic plan for your migration highlighting dependencies and risks.

2

Designed

We create a solution design that fits your needs for performance, management, governance, security, and DevOps

3

Ready to use

We migrate and modernize your servers, applications and data. We test & review with you to ensure ready for use

Migration is split into two separate services Azure Assessment (Discover and Assess) and Azure Migration (Deploy and Release)

Which service should I choose?

Reduce Migration Risk

Fully prepared for migration

Secure and efficient migration

Adoption of Microsoft best practice

Assessment – Discover and Assess

I want to get started preparing to migrate to Azure by:

- Discovering the IT Estate
- Assessing Workloads
- Defining a Migration Strategy
- Developing a Target Azure Architecture

Migrate and Modernise– Deploy and Release

I want to migrate or modernise and have already completed the Shaping Cloud Azure Assessment or have a detailed implementation and migration plan and target architecture. I need to:

- Migrate and modernise workloads moving them to Azure
- Test and Validation Migrated workloads
- Transition to operations

Why Shaping Cloud

1

Cloud first

We are a true cloud-first focused Microsoft Gold partner

2

Hybrid partner

Shaping Cloud are hybrid cloud Partners, not just providers

3

Extensive experience

We possess extensive private sector, local and central government experience

4

First adopters of Azure

Shaping Cloud was one of the first early adopters of Azure – so we can get you to where you want to go, faster

7

Realistic and pragmatic advice

We provide realistic and pragmatic advice based on real-world operational experience

6

Technical knowledge

A breadth and depth in technical knowledge - legacy, hybrid and cloud

5

Proven track record

A proven track record delivering transformation / migration / deployment / delivery
