

# DevOps Implementation

## GitHub: 4 Week Implementation

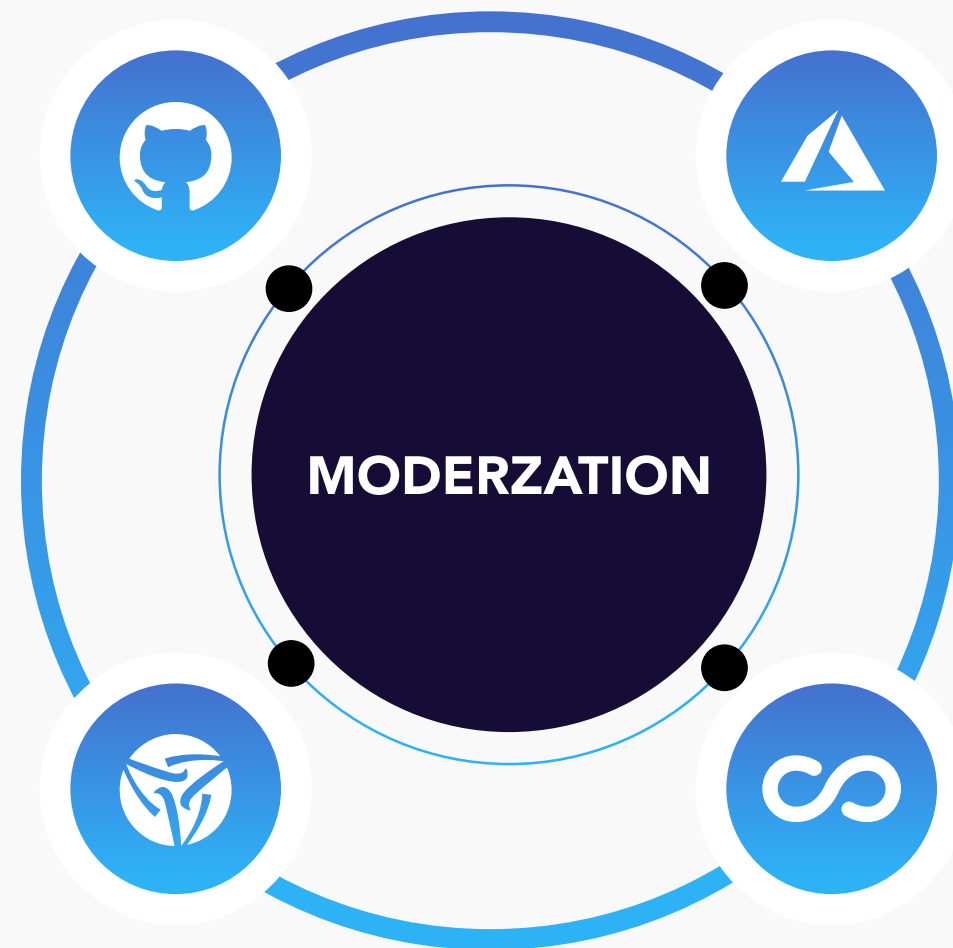

Improving the pace and accuracy of new feature deployment is not an easy task. Furthermore, the need to innovate while maintaining application scalability and dependability becomes intractable when you want to keep up with market demands.

**The only resolution to this complexity is to modernize your application and reduce delivery time.**

### GitHub

Leading DevOps toolset for code repository, CI/CD automation and artifact repository

### Azure

Targeted environments for Dev and Test application deployment

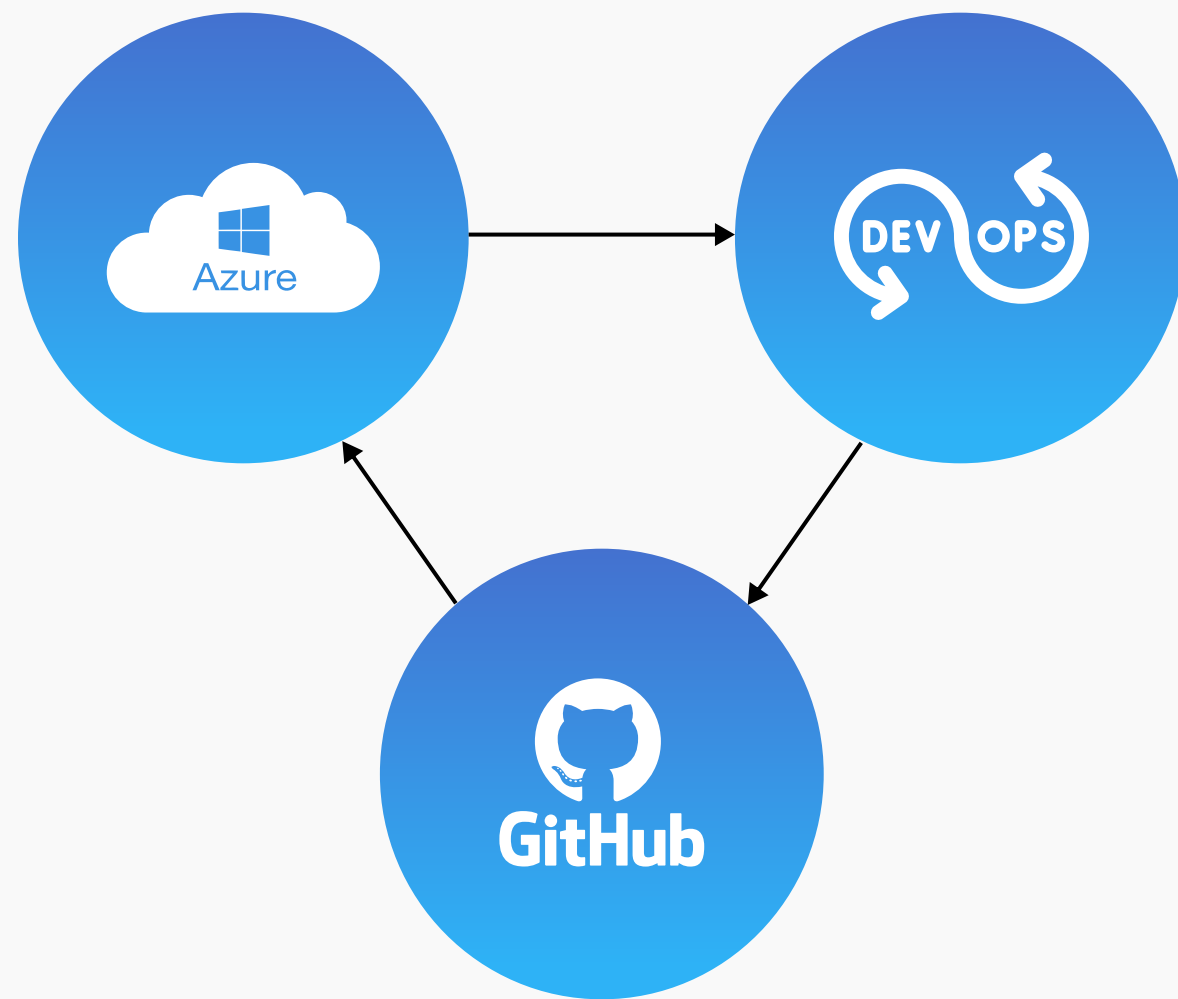

### Avasoft's Accelerators

Proven reusable assets to streamline the process automation

### DevOps Practices

Implementation of key DevOps practices that enable reliable, frequent and on-demand release

Our program implements essential DevOps standards and procedures through the use of GitHub repositories, CI/CD provision via GitHub Actions, and asset handling via GitHub Bundles. A proof-of-concept solution of Azure Dev/Test settings is also offered regardless of the intricacy of the app or element.

- Enhance accuracy
- Achive on-demand delivery
- Save Plenty of time
- Reinstate core Strategies

## COHERENT PLANNING & OPTIMAL OUTCOMES

Scheme	Rollout	Outcomes	Discretionary
<ul style="list-style-type: none"> <li>• Determine the business objectives</li> <li>• Introduction to GitHub and DevOps (tailored practices)</li> <li>• Examine the application</li> <li>• Refine the plan and its scope</li> </ul>	<ul style="list-style-type: none"> <li>• Incorporation of source code</li> <li>• Automation of CI/CD using GitHub Operations or interaction with an established CI/CD framework</li> <li>• Automation of setting management</li> </ul>	<ul style="list-style-type: none"> <li>• Demonstration of outcomes</li> <li>• Information is transferred</li> <li>• Recognition of the subsequent phases</li> <li>• Guidance and assistance</li> </ul>	<ul style="list-style-type: none"> <li>• Planning and execution of Azure administration</li> <li>• Deployment of GitHub's integrative framework</li> <li>• Task management approach and deployment using GitHub Project and Issues</li> </ul>

**Eliminate time-consuming manual operations. Begin your modernization journey with our integrated solutions and accelerate your business agility. Schedule a consultation with us.**
