MACHINE LEARNING ENTERPRISE ACCELERATOR

Automation and standardization can dramatically increase model training and deployment speed. Our machine learning (ML) accelerator is comprehensive, consultant-led, and turnkey. This mature and enterprisegrade solution enables your team to deliver on the promise of Data and Al. Avoid costly learnings, trial and error, and false starts and take advantage of an advanced and proven ML strategy.

GET TO PRODUCTION!

INCREASE YOUR VELOCITY

Data movement

The - Ingest, Prepare, Train, Deploy and Operate - workflow is complex. Collaboration and standardization are key to significantly improve the delivery of your teams and solutions.

DELIVER ON THE PROMISE

An enterprise-grade solution is more than a proof-of concept. You need proven and robust practices, automation, and built-in governance. The result, enables a reproducible, scalable, and

GET THERE CONFIDENTLY

ML is cutting edge. Stop assembling and testing technologies. Focus on innovation through AI. Save time, effort and money by implementing a proven and adaptable solution.

Data Preparation

Mentoring and Support

"Within weeks, we took our ML capabilities to amazing new heights. We drastically improved the model quality and accelerated deployment into production. The packaged InCycle Accelerator was exactly what we needed."

Director, Analytics - NBA Franchise

InCycle is an award-winning digital transformation company. Recognized for industry leadership and customer impact, InCycle is a three-time recipient of the prestigious Microsoft Partner of the Year (2017-19).
