# Abnormal for Microsoft 365

Complement Microsoft's threat intelligence-based defenses with precise, behavioral analysis-based protection against all email and account takeover attacks.

#### Fastest Path to Complete Protection

Deploy in minutes at any scale. No configuration or custom policies required.

## Works with Microsoft Defender for Office 365

More than half of Abnormal enterprise customers do not use a SEG.

#### Integrated Admin and End-User Experience

Single management pane for Microsoft and Abnormal, plus native Outlook experience for users.

#### Integrated Visibility and Control

With a single pane of glass, analysts no longer need to toggle between the Microsoft dashboard and other email security solution dashboards.

With deep integration, you get unified visibility and control across Microsoft 365 and Abnormal, greatly simplifying investigation, remediation, follow-up, and reporting.

#### Enhance Microsoft with Behavioral AI

By deeply understanding entities—users and vendors, their behavior, relationships, and tone and content shared—Abnormal precisely detects anomalies and blocks attacks that evade Microsoft.

# ▲ Identity Analysis: Possible Executive Impersonation Out of 8443 real emails we've seen from 'Renee West' (Sr VP Treasury), 0 have been sent from 'renee.z.w@gmail.com'. ▲ Behavior Analysis: Atypical Contact \*Renee West' and 'Josh Waters' have never previously corresponded. ▲ Content Analysis: Urgent Financial Request This email was flagged with a 'Financial Request' topic and 'Urgent' sentiment. Urgent financial requests are commonly associated with business email compromise (BEC).

## **Abnormal**

## Improved End-User Experience and Productivity

Abnormal learns end-user preferences by observing how they move messages between folders, allowing it to automatically create and manage individualized safe and blocklists, as well as deliver spam and graymail to junk and promotional folders respectively. End users no longer have to rely on spam and quarantine digests to salvage missed messages.
