Microsoft Security

Defend Against Threats with SIEM Plus XDR Workshop

Learn how to put next-generation Microsoft security tools to work for you.

Workshop highlights

Review your security goals and objectives

Identify real threats in your cloud environment with Threat Check

Map identified threats to specific solution recommendations

Showcase security scenarios with product demos

Develop joint plans and next steps

Do you know how many phishing attacks your organization has received? If employees are using the right password protocol? Whether personal data is being exposed? In short, is your organization's cloud environment as secure as you think it is?

## Improve your security posture with a Defend Against Threats with SIEM Plus XDR Workshop

Organizations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives—and identify current and real threats—by scheduling a Defend Against Threats with SIEM Plus XDR Workshop.

We can help you develop a strategic plan customized for your organization and based on the recommendations of Microsoft experts in security. You'll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to upgrade your security posture for the long term.

Why you should attend

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it's essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward. By attending this workshop, you can:

|			
Identify current, ongoing security threats in your cloud environment	Walk away with actionable next steps based on your specific needs and objectives	Document your security strategy for the benefit of key stakeholders	Better understand how to accelerate your security journey using the latest tools

What to expect:

During this workshop, we'll partner with you to strengthen your organization's approach to cybersecurity. We'll help you better understand how to prioritize and mitigate potential attacks, with:

- Deep analysis of cyberattack threats that are found targeting your organization

- Actionable recommendations to help immediately mitigate the identified threats

- A detailed assessment of your IT and security priorities and initiatives, direct from cybersecurity pros

- An inside look at Microsoft's holistic approach to security, and how it relates to your organization

- Demonstrations of integrated security, including the latest tools and methods

- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps
| Pre-Engagement Call	Kick-off Meeting	Cloud Discovery Log Collection	Threat Exploration	Threat Results Presentation	Engagement Decommissioning

Who should attend

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Data Protection Officer

- Data Governance Officer
- IT Security, IT Compliance, and/or IT Operations
- Data Governance
