App of the Future Engagement

Azure

$ **Value:** $ 10,000 (funded by Microsoft)

🕐 **Duration:** 5 days

In just one week, customers will receive a hands-on consulting engagement providing architecture design recommendations for an Application of the Future that addresses project goals and business value objectives.

Summary

InCycle's App of the Future offer provides a Microsoft-funded 5-day engagement to quickly envision, prototype and design a cloud app showcasing target use case and business impact.

About

InCycle enables companies to maximize competitive advantage by modernizing apps, data, infrastructure & practices. We provide thought leadership and "Accelerators" (technology and hands-on professional service) to help customers quickly and strategically adopt Azure, leverage data, develop new applications, and modernize existing applications. Servicing customers throughout the US & Canada, we have successfully completed 1000s of projects across industries and verticals. At InCycle, we believe there is a "better way," and we guarantee our work!

Geographic coverage

- United States
- Canada (French & English)

Industries

Financial Services	Healthcare	Software & ISVs	Energy	Mfg. & Retail

Solution Areas & Expertise

CLOUD STRATEGY	APPLICATION MODERNIZATION	CONTAINERS & KUBERNETES	AGILE/DEVOPS TRANSFORMATION	DATA & AI
Strategy	Architecture	Implementation		Mentoring

Partner Designations

Microsoft
Partner Advanced Specialization
Modernization of Web Applications on Microsoft Azure
Kubernetes on Microsoft Azure

AWARDS AND CERTIFICATIONS

Microsoft Partner
Gold Application Development
Gold Application Integration
Gold Cloud Platform
Gold Data Analytics
Gold Data Platform

Awards

2022 Impact Award

Microsoft Partner Awards
2021 US Partner Award Winner - Media and Communication
2021 US Partner Award Winner - Azure Analytics
2020 US Partner Award Winner - Data Analytics
2017-18-19 Partner of the Year Winner/Finalist - DevOps
Microsoft

Challenge & Overview

Organizations struggle to envision the **App of the Future.** To help organizations harness the power of cloud-native technologies and truly understand what "is possible," we offer the **App of the Future** engagement to uncover your top business objectives, ideate on solutions, create a rapid prototype and a reference architecture - all built on Azure! Deliverables include:

- **Envisioning and Design** - Through a collaborative workshop approach, we'll create awareness and envision the role of a modern cloud application for your organization. InCycle will lead an ideation workshop and define a target solution..

- **Rapid Prototyping** – Our team will develop a rapid prototype or customized demo showcasing the target use case and realizable business value.

- **Architecture Design** - Azure architects will lead solution design and provide an application architecture, include detailed service to be used and a prioritized backlog and costing.

- **Confidence to Move Forward** - Based on Azure, you'll have everything you'll need to get started, including a solid vision and a strategic roadmap (backed by expert consultants). Moreover, InCycle will provide new proposal for the full solution build on Azure. Should you decide to move forward, additional funding may be available (via AMMP).

Customer Success!
