

YOUR DIGITAL TRANSFORMATION ADVISOR

WHO IS MIA?

MIA is a digital transformation advisor.

She is the tool that analyses your IT, OT and Business landscapes, easily, at speed and drives transformation.

Modernising business processes

Identifying opportunities to optimise

Delivering value/cost savings

CHALLENGES

MIA CUSTOMERS FACE

CEO

CDO

- How and where to save on costs
- How to improve growth, performance and profitability
- Visibility and reporting across the entire business for informed decision making
- Opportunities to modernise and optimise
- Where our biggest risks are
- How to accelerate our Digital Transformation Journey
- Find ways of deriving new value through the smart use of digital tools, platforms, technologies, services, and processes and automation
- How to utilise data and insights correctly and effectively to tie back to business priorities and ideal outcomes
- How to promote a growth strategy through digitisation and transformation
- How best to adopt digital technologies across the organisation

COO

CFO

- How to enhance operational efficiencies
- How to streamline and speed up operations
- How to enhance customer trust
- Where are our biggest risks, including cybersecurity threats
- Where to improve performance and productivity
- Protect the vital assets of the company
- Compliance with financial regulations
- Budget and Expense Control
- Flexible budgeting designed to align digital strategies to growth
- Where to invest in value-driven technology

CIO

CHR

- Considering new business models but not knowing how to adapt.
- Owning old, legacy/ redundant technology, resulting in a lack of knowledge about new opportunities
- How to scale
- How to manage disparate landscapes and monitor performance
- Future-proofing our technology - how to drive and adopt technology
- What change initiatives there are, in order to manage employee innovation
- How to drive new technology in order to be able to serve the growth and expansion needs, training and workforce management
- User adoption of new and online technologies
- Awareness of digital transformations to promote productivity and culture
- Where to improve productivity

MIA

Monitors Investigates Advises

on risks and
opportunities

She is your partner in understanding, assessing and analysing the technology landscape and broader business.

She identifies risks and opportunities for improvements.

Makes recommendations for improvements – packaging them in reports to enable rapid, informed decisions, improving time to market and assisting strategy execution.

OUTCOMES

- Optimised view of the landscape
- Modernisation opportunities of the landscape
- Cost saving opportunities of the landscape
- Prioritised and actionable list of recommendations that results in optimisation, moderation and cost saving.
- Receive a packaged report that incorporates best practice for presentation to management.

4MIA will
help lead
your digital
transformation
journey

Because she provides
visibility

of where to unlock value and how much you can expect to gain, the identified savings can be effectively applied to other initiatives in your digital transformation plan – providing you with a self-funding roadmap.

Responsible for creating reusable processes, human Intelligence is applied to the data. She continually fetches and uses the latest information available.

She is quick and accurate, performing millions of calculations in seconds. She is intelligent, learning and evolving and then becomes predictive.

CONTACT US

Incorporated in 2017, 4Sight is a JSE AltX (ticker: 4SI) listed, multi-national, diversified technology group. Our purpose is to leverage our extensive product and services portfolio, focused on 4IR technologies, people and data-focused solutions to design, develop, deploy and grow solutions for our partners (customers and vendors).

The company's mission is to empower our partners to future proof their businesses through digital transformation to make better and more informed decisions in the modern digital economy.

4Sight's business model enables its partners to take advantage of products and solutions within its group of companies, which will allow them to enjoy turnkey digital transformation solutions across industry verticals.
