

TIME FOR THE IMPORTANT MATTERS:

Core legal issues

NEXT LEVEL CONTRACT LIFECYCLE MANAGEMENT: LEDOX365

Business relationships between companies, service providers, partners and employees are the nervous system of any company. These relationships are typically recorded in contracts. How these contracts are managed and how contract data is handled and evaluated is crucial. This is why LEDOX365 was created.

Join offers a holistic contract management solution that adequately addresses challenges faced by countless lawyers and their counterparts in business functions worldwide.

Benefit from a state-of-the-art solution for managing contracts in all contract phases: from contract drafting and negotiation with external parties to approval and signature workflows in paper or digital form. In addition, all master data management functions, evaluations and archiving of data are covered by the solution.

THE NEW WAY OF CONTRACT MANAGEMENT WITH LEDOX365

Contracting for Performance

- › Provide your business users with ready-to-use sample contracts and an NDA clause library predefined by your legal department. This reduces risks and increases transparency.
- › Manage your matters and disputes centrally and create reports for management.
- › Simplify global collaboration with different teams on legal projects.
- › Get full workflow support in all contract phases from initiation to termination.
- › Collaborate with colleagues and even third parties in real time, based on the standard features of Microsoft 365.
- › Save time - get signatures or give approvals in seconds with eSign.
- › Keep full control of your contracts thanks to reporting and archiving functions.
- › Never miss a deadline thanks to automatic notifications.

BASED ON

LEDOX365 is completely based on Microsoft 365, probably the most widespread application used by many companies worldwide.

- › Use the possibilities of your existing Microsoft licences.
- › The familiar user interface makes it effortless for users to get started.
- › If required, the solution is easily scalable.
- › Benefit from the strong security and protection concept of Microsoft 365.

The simplification offered by this end-to-end contract management solution benefits legal departments, business and IT managers in your company anywhere in the world and takes your contract management to the next level!
