Microsoft Azure - a versatile cloud

Microsoft Azure Cloud

Safe working environment for your company, teams and customers. Unlimited scalability, constantly developed tools and the support of Microsoft engineers, guarantees security and business continuity.

Twój sukces z chmurą Microsoft i wsparciem inżynierów Asseco Data Systems

Efficiency

Azure ensures access to high-performance virtual machines and services to avoid a bottleneck in your project.

Flexibility

Full scalability of available resources and mechanisms embedded in services make it easy to adapt the infrastructure to the needs of the organization.

Security

Azure is a perfect choice as a main environment for different projects. It is fully compliance with GDPR and fulfills requirements of many government organizations.

Reliability

Redundancy, multiple centers and possibilities of swift switch of traffic between regions make the work of end users and recipients easier.

For every industry

Microsoft Azure is a cloud that can be used in each and every industry. At Asseco Data Systems we employ Microsoft technologies for different projects and know that providing reliable, flexible and secured environment to thousands of users is possible.

Start cooperation with a trusted **Microsoft Partner** in the field of Azure cloud and let us help your project spread its wings.
