Azure Windows Virtual Desktop (AVD) **Quick Start**

Accelerate your adoption of this **powerful remote working solution**

Go beyond the limits of desktop computing with Microsoft **Azure** Virtual Desktop (**A**VD). Securely hosted in Azure, **A**VD enables your workforce to access a desktop anywhere, with a superb user experience that is quite simply unmatched by other virtual desktop solutions.

Bytes can help you get started with **A**VD. Our Quick Start team is on hand to deliver a **A**VD solution that suits your business requirements. We will evaluate, deploy and configure your new solution with the expertise that comes from being a Microsoft Gold Partner.

What is Microsoft **Azure** Virtual Desktop?

Microsoft AVD is a virtual desktop solution. It enables users to access a desktop remotely from any device – PC, Mac, Android, iOS and HTML5.

As AVD is hosted in Microsoft Azure, you can be confident that it has robust security in place to protect valuable business data.

Features include:

- Extended support on Windows 7 until January 2023
- Only virtual desktop solution with Windows 10 multi-session
- Highly scalable with a variety of VM sizes to suit every user
- Pay only for what you use – no upfront cost or termination fees
- Full Office 365 functionality including Teams and OneDrive

Powered by Azure

How does our **AVD Quick Start** service work

This service will ensure your business makes a quick, stress-free transition to AVD.

Bytes AVD specialists will:

✔ **Discuss the AVD options available** to you in terms of functionality, management, security and financial commitment

✔ **Understand your specific requirements** for a AVD environment i.e. number of desktops, availability, access methods, scalability and content delivery

✔ **Rapidly deploy a AVD solution** within your Azure environment for testing and to demonstrate the speed of creation, ease of access and excellent user experience (Windows 10 & Office Pro Plus only)

✔ **Work closely with you** to map out the next steps on your future AVD adoption roadmap

Ready for **Azure Virtual Desktop?**

Who is AVD for?

AVD is ideal for organisations that want to:

- Support remote working in a fast-changing business environment
- Reduce or eliminate on-premise capital costs
- Reduce office overheads and drive more flexible remote working
- Respond quickly to EUC break/fix events
- Enable much more secure remote working
- Deliver a headache-free virtual desktop user experience
- Ensure their staff have a consistent working experience - irrespective of location or how they access resources
