Scytl

Scytl Election Night Reporting solution, exemplified by Contra Costa County, CA, is a **2017 W3 Gold award winner** in the Website Features User Experience category for increasing access and accessibility to election night results.

Scytl ENR helps increase access to election results for people with disabilities, and allows voters to view, share, and download the most updated results information for each contest. Scytl provided Election Night Reporting to more than 500 U.S. election jurisdictions in the 2016 General Election.

> "Our office likes Scytl ENR for several reasons. At the end of an election, ENR produces an Excel spreadsheet that breaks down the contest results by precinct, **allowing us to easily adhere to California state law**; it reduces the number of calls from the public and the media; and **it is so easy to use, we don't have to explain to people how to use it**."
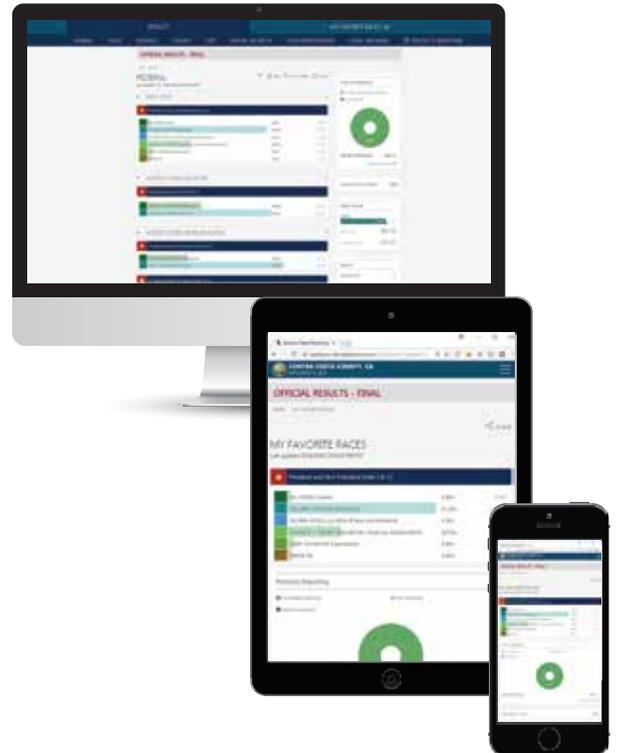

Scott Konopasek, Assistant Registrar of Voters,
Contra Costa County, CA

For Voters and the Community:

- Up-to-date, mobile-optimized access to election night results

- Multi-lingual for non-English speakers

- 508 ADA Compliant

- Allow the community to follow specific contests and download final results to reduce scrolling and searching

- Display data in a visual and interactive format that is easily shared via social media and email

For the Elections Office:

- Easy to manage, maintain, and update

- Simplify compliance with California law by providing Excel speadsheet break-down of all results by precinct

- Reduce voter, candidate, and media inquiries into contest results

- Secure, redundant, and available 24/7/365

- Robust and flexible bandwidth to accomodate peak periods, especially on Election Day
