PINAL COUNTY ARIZONA &
SCYTL ELECTION NIGHT REPORTING

CHALLENGES

- **ADA Compliance Requirements**

- **Provide Results in Multiple Languages**

- **Automate requests for data**

SOLUTIONS

Provide Election Night Reporting in a format **that allows people with disabilities to more easily engage and participate in elections.**

A multi-lingual platform that allows Pinal County to provide ENR in more than one language, **as easily as they provide results in English.**

Automatically create and post Election Night data files that drill down to the details. **Pinal can automatically send the data to select people on a list,** or anyone can download the data at any time after the election.
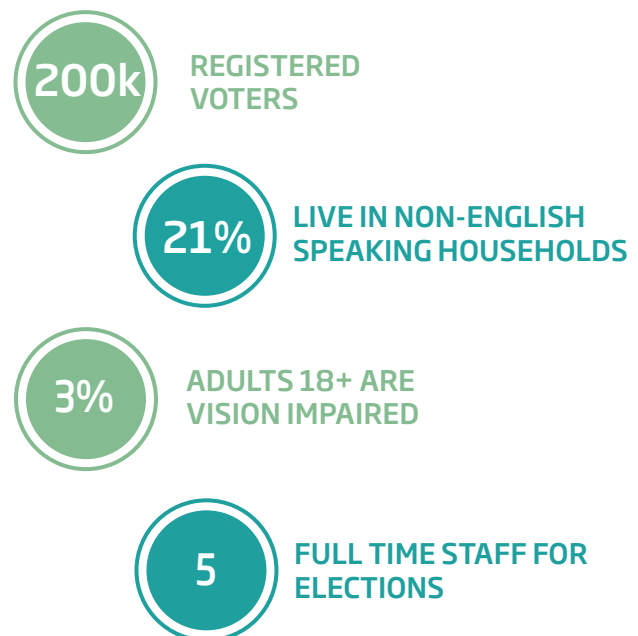

> Scytl ENR made it easy for Pinal County to provide Election Night results in a format that is **508 ADA compliant and multi-lingual.** It also helps reduce phone calls to the office asking for updated results on and after Election Night.

> Pinal County, AZ

BENEFITS

- **Simple data uploads.** "Scytl ENR is as easy to use as our previous provider, with 3 steps - upload file, pre-view, and publish. Simple." -Michele Forney

- **Simple for the public to to consume and share data.** "Not only is Scytl ENR ADA compliant and multi-lingual, but the public can easily follow their favorite contests and drill down into the details using maps and charts." - Michele Forney

- **Increase transparency.** "Pinal County's ability to quickly and easily post Election Night results helps our county Board of Supervisors and the community as a whole to be better informed." -Michele Forney
