

Launch Your Hybrid Workplace

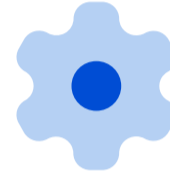

Nspace is an innovative planning, booking and safety solution that enables a hybrid workforce of onsite and remote staff. Our cloud-based application supports the operation and management of your workplace so that you can get back to business with confidence. Welcome to a workplace that works for everyone.

From intelligent seating plan configurations and cleaning compliance tools to self-service workspace booking for employees, Nspace has everything you need to manage risk and reboot a collaborative and productive workplace experience.

User-Friendly: Nspace is quick to deploy, easy to understand, simple to use, and straightforward to manage.

Configurable: Nspace runs on a flexible, scalable platform that supports just about any space-sharing scenario or constraint.

Qualified: Our award-winning corporate interiors professionals are experts in creating people-centered workplace experiences. We understand the needs of today's rapidly changing office environments.

Nspace Benefits

Stay Agile

Incorporate floor plan changes, shift work, and staggered arrival times with ease. Adapt quickly to changing circumstances: configure, reconfigure, and scale occupancy up or down.

Uphold Health & Safety Protocols

Enable just-in-time workplace cleaning schedules, survey employee health status, and trace contacts to alert employees and visitors in the event of exposure.

Run a Smarter Workplace

Maintain control and visibility with sensor integration and analytics dashboards. Nspace provides you with valuable workplace usage data to pivot CRE strategy and guide ESG programs.

Foster Connections

Welcome employees and visitors back to a workplace where they can coordinate time onsite, locate each other, collaborate, and work more productively.

Desk and room booking
