

Shield One: Managed Security Service

Get a bird's eye view of your Cybersecurity

Shield One is our next-generation managed security service (MSS). Powered by the game-changing Microsoft Sentinel SIEM, our MSS provides 24/7/365 security monitoring and incident response for all your enterprise platforms: cloud services, endpoints, and other critical infrastructure

How It Works?

- ▶ 1. Connect your Microsoft security suite + all other security tools to the Shield One service
- ▶ 2. Enjoy intelligent security analytics, response, investigation, and SOAR capabilities
- ▶ 3. Receive a Monthly report of your security incidents and averted attacks

BENEFITS

PRICING

 <p>Automated Security Ops</p> <p>Security automation & Orchestration (SOAR)</p> <p>Automated Deep Investigation & Threat hunting</p> <p>Rapid Incident Response</p>	 <p>Visibility</p> <p>Single pane of glass view of all your security tools</p> <p>Data-rich dashboards via Microsoft Azure workbook</p> <p>Realtime threat reporting and audit logs</p>	 <p>Flexible, Usage-based Billing</p> <p>Eliminate the costs to setup and operate your own SOC</p> <p>Pay as you use</p> <p>Billing is calculated based on Azure data ingestion</p>
