

# Minimizing drug waste and counterfeiting

Smart Pharmaceutical Supply Chain is a cutting-edge IoT platform that transforms supply chain security, compliance and cold chain wastage by generating geospatial alerts and breach notifications in the event of a temperature excursion or drug counterfeiting attempt.

# An Overview

Temperature is monitored through each leg of the journey, improving actionable insights.

A high degree of automation offers great improvement in operational efficiency.

Real-time analytics, alerts and dashboards provide supply chain visibility.

A blockchain enabled anti-counterfeiting solution offers real-time breach notification and geo-spatial information.
