

# Microsoft – Azure Virtual Desktop (AVD) Implementation

## Key Information

### Business Unit

Digital Design and Delivery

### Technology

Virtual Machine Solution for a great user experience. Users/Desktop / Device Solution

### Project Timeline

4-weeks

### Price

Base Offering - \$20,680\*

\* Cloud subscription not included

## Product Description:

**Azure Virtual Desktop:** Is your organization looking for a more efficient, productive and secure approach to desktop virtualization? Let **NTT show you the way** and help enable a flexible cloud VDI platform for your hybrid business workplace:

No one predicted a global pandemic would force millions of workers to leave the office and work from home. Organizations around the world migrated important apps and data to the cloud to gain business resilience, agility in order to support the new remote workforce. In order to help customers, support their new remote workforce a flexible cloud VDI platform for nearly any use case - accessible from virtually anywhere is required. Flexible work is here to stay. According to the Microsoft's 2021 Work Trend Index, over 70% of workers want flexible remote work options to continue.

**Azure Virtual Desktop** (AVD) has the capability to support this broader vision and the changing customer needs. AVD and Remote Work Assist integrate to create an always-on support system for organizations of all sizes and all industries. With Remote Work Assist, your organization can get the support that it needs to avoid business disruption and increase operational efficiency—from anywhere, to anywhere.

## Secure, Standardized and scalable

A scripted deployment of a standard AVD infrastructure into a secured Vnet configuration, connected to the client network via P2S VPN. Creation of a golden image, automated patching and backup.

## How to get started

The Engagement is led by the Solution Team, a certified partner, and the customer's account team. Customers work with Microsoft and the client to implement a scalable secure environment optimized for the remote worker.

**Phase 1**  
Discovery  
1-2 Week

**Phase 2**  
Pilot  
+Deployment  
1-2 Weeks

**Phase 3**  
Support  
+Adoption  
1 Week

# Microsoft – Azure Virtual Desktop (AVD) Implementation

## NTT Differentiators:

**Why Choose NTT?** NTT partnered with Microsoft because together we enable the connected future.

- **Microsoft Global Gold Partner** – We hold 17 Gold Competences and have received more than 20 global Microsoft Partner of the Year awards over the last 10 years.
- **Azure Expert MSP** – We are one of only a handful of Azure Expert MSP's globally who deliver deep cloud technical know-how, and consistently help our customers get the most from their public cloud investment.
- **Exclusive Azure Networking MSP Partner** – Delivers value added managed cloud network services, to help enterprise customers connect, operationalize, and scale their mission critical applications running in Azure.
- **SAP on Microsoft Azure Advanced Specialization** – Deep knowledge, extensive experience and proven success at implementing SAP solutions on Microsoft Azure

## Projects Delivered:

## NTT Service Offering:

**Azure Virtual Desktop Pilot:** With this 4-week\* Azure Virtual Desktop (AVD) Pilot, NTT will demonstrate how AVD can help you optimize your IT spend, improve your business productivity and continuity with the solution. This Pilot is designed to be a practical evaluation for the technology, or as a precursor to a full AVD engagement. The intent is to deliver a pilot that can be transition into production.

### **Week 1: Planning and Discovery:** Kick-off Workshop:

- Documentation creation
- Application Discovery
- Golden image creation
- Network Reequipment gathering

### **Week 2-3: Building of Landing Zone / Environment:** Implementation

- Create Hub Spoke deployment
- Customization of deployment scripts
- Creation of Shared pool and Dedicated pool
- Setup Automation scripts

### **Week 4: Testing / Adoption / Review**

- User acceptance testing
- Update Documentation
- Closeout and handover

## Additional Services Options:

**Migrate to Microsoft Teams:** Easily enable high-quality telephony on Microsoft Teams

**Journey to the cloud:** Enablement and Migration consulting services

**Microsoft Managed Meeting Rooms:** Solution Room Management.
