

Romanian Localization and Fiscalization

for LS Central

intelligent
systems

Overview

Romanian Localization & Fiscalization for LS Central extends the sales and accounting functionalities of LS Central and Microsoft Dynamics 365 Business Central. The solution, developed by the Intelligent Systems team, enables the integration between your LS Central retail system and a fiscal printer, in compliance with the requirements of the Romania's legislation and the Romania's Tax Authorities.

The established integration could be an effective way to support and automate the enforcement of legal requirements in your sales process.

Romanian Localization & Fiscalization for LS Central allows a predefined layout of a fiscal receipt to be sent to the connected fiscal printer when posting a sales transaction in LS Central POS. The receipts print forms follow the Romanian fiscal regulations and contain all mandatory data.

It is a perfect tool for:

- Romanian retail companies that use LS Central and want to stay compliant with the Romanian accounting legislation and to integrate their LS Central POS with a fiscal printing device

Romanian Localization & Fiscalization for LS Central is available on Microsoft AppSource.
