Industry Challenges

While many organizations have purchased Microsoft 365, many are not harnessing the full power of the platform.

In-house Legal and Compliance departments struggle to adopt, deploy, and manage Microsoft 365 features designed to support their programs.

Deployment is a traditional IT-driven where legal and compliance are not typically engaged until the end of the process.

Deep subject matter expertise is needed in both platform functionality and organizational requirements to help corporations operationalize Microsoft 365.

Lighthouse CloudCompass

A membership program designed to keep you ahead of change in the dynamic cloud computing landscape.

Key Use Cases

CHANGE MANAGEMENT

Stay ahead of ongoing Microsoft 365 product updates to specific legal and compliance impacts.

CHANGE IMPACT ASSESSMENT

Update your information governance, compliance, and legal programs through assessments.

PROCESS REALIGNMENT

Adapt policies and processes, manage risk, and improve implementation across information governance, compliance, and legal workflow.

Mitigate legal and compliance risk

Leverage CloudCompass to stay ahead of the curve

As businesses seek to reap the benefits of moving to Microsoft 365 in the cloud, they face new challenges and risks relating to information governance, compliance, and eDiscovery programs. Businesses need a new approach to quickly adapt to their programs, operational models, and workflows. This is a dynamic process that requires constant attention, diligence, and expertise that can be difficult for legal and compliance teams to source and manage alone.

CloudCompass provides timely, curated updates prioritized by risk, backed by expert support designed to help you maintain compliance and defensibility to mitigate legal risk in Microsoft 365. Lighthouse offers our continual expertise guidance on Microsoft 365 updates and impacting your programs, keeping you ahead of the curve.

Reduce risk with the power of the cloud

CloudCompass is a membership program based on three pillars:

READINESS: Our industry-leading Risk and Recommendations (R2) Report provides a risk rating, impact assessment, and recommended actions for every Microsoft 365 release on the roadmap.

ENABLEMENT: Articles, documentation, and best practices authored by Lighthouse experts, some of the best and brightest in the industry.

EXPERTISE: In addition to a block of on-demand consulting hours, clients receive an annual health cheque, which includes an assessment and validation of your legal and compliance workflows. You also receive our annual workshop, a half-day review of trending topics, best practices, and emerging tech.

Client Scenario

Customer Challenge

Stakeholders at an engineering firm found Microsoft 365 adoption challenging, due to perceived and actual legal and regulatory risks associated with migration and the lack of an appropriate strategy to navigate these issues.

They wanted to understand how to best leverage its investment in Microsoft 365, including use of tools for eDiscovery and information governance ahead of the company's pending deployment and implementation.

Solution & Results

CloudCompass is a membership program designed to prepare businesses to stay ahead of changes specific to compliance in the dynamic Microsoft 365 cloud environment without shouldering the lift and cost of internalizing specialty resources

Although these clients could choose from one of the many cloud consulting services that Lighthouse offers to assist them on their Microsoft 365 journey, they had an urgent need to launch a Microsoft 365 eDiscovery program as soon as possible, maturing their program through CloudCompass.
