Leveraging CloudCompass for Microsoft 365

As businesses seek to reap the benefits of moving to Microsoft 365 in the cloud, they also face new challenges and risks relating to information governance, compliance, and eDiscovery programs. Businesses need a new approach to quickly adapt to their programs, operational models, and workflows. This is a dynamic process that requires constant attention, diligence, and expertise that can be difficult for legal and compliance teams to source and manage alone.

Lighthouse offers our continual expertise of Microsoft 365 updates and their impact to your programs, keeping you ahead of the curve.

Mitigate Legal and Compliance Risk With Dynamic Cloud Technologies

Reduce risk while leveraging the power of the cloud

Take advantage of our expertise and partnership with Microsoft. We offer:

- A tiered approach, with a variety of packages to suit your unique business requirements, covering a range of critical services across four areas: education, strategic planning, implementation, and managed services.
- The ability to stay abreast of product updates to the Microsoft platform, as well as to assess the impact of changes and adaption to their business processes.
- When complete, you will have the confidence that your information governance and eDiscovery programs will be in front of change so you can maintain a compliant and defensible status.
