

Microsoft 365 - Migration, Deployment, Adoption

A successful workplace experience empowers employees to be connected and productive, both within and across teams, from wherever they sit.

TrnDigital helps organizations deliver **successful workplace experiences** with end-to-end **Microsoft 365 Migration, deployment, adoption & change management** services. Our scaled engagement model enables us to support organizations of any size - from startup to enterprise - with **predictability and rigor**. Our end-to-end solution will help you:

Accelerate innovation

Unify employees on one secure cloud platform with a fully managed migration methodology to move rapidly to deployment on M365 – with rigorous data validation and support for exceptional scenarios.

Do more with less

Drive cost efficiencies by consolidating & decommissioning outdated collaboration / file-sharing solutions. And ensure users successfully embrace new capabilities with learning support, internal champions communities, and change management.

Protect sensitive data

Deploy Microsoft security & compliance capabilities so that employees can be creative and work together securely. Implement data governance & compliance capabilities to reduce risk.
