Microsoft 365 Platform Deployment & Integration

We help legal and compliance departments reduce risk and maximize opportunities with Microsoft 365 deployment.

Key Use Cases

DEFENSIBLE MIGRATION

Migrate relevant email legal archive data from legacy systems into Microsoft 365 in a legally defensible manner.

TECHNOLOGY CONFIGURATION

Manage dynamic and complex workflows, processes, and automations in your organization.

TECHNOLOGY INTEGRATION

Integrate Microsoft 365 effectively while managing legal risk and meeting compliance requirements.

PROCESS AUTOMATION

Create an ongoing process to manage data on a consistent basis to alleviate manual effort.

Deploying and Integrating Microsoft 365

When an organization deploys Microsoft 365, the focus is typically on the technical and business requirements, at the expense of legal and risk considerations. We help companies focus on the legal, compliance, and governance challenges that are often overlooked. Our expertise is:

1. **Data Loss Prevention Implementation:** Validate data classification and handling policies, capture requirements for configuration, conduct testing and piloting, and go forward with an implementation plan.

2. **Defensible Email Archive Data Migration:** Migrate all relevant email legal archive data from legacy systems into Microsoft 365 in a legally defensible manner.

3. **Process Automation, Technology Integration, and Custom Development:** Develop, integrate, and automate complex and cumbersome systems into streamlined processes that support improved accuracy, delivery, and visibility across organizations.

4. **Implementation** of Azure Information Protection, Advanced Compliance, Advanced eDiscovery, data loss prevention, and records management in Microsoft 365.

Deploy and Integrate Microsoft 365 and Minimize Your Legal and Compliance Risk

Solutions Partner

Security

Implement Microsoft 365 With Confidence

Implement and integrate Microsoft 365 into your organization with confidence, knowing you have mitigated risk factors and ensured a legally defensible process. We provide:

- Assessment and evaluation of your policies, workflows, and practices related to data classifications.
- Configuration and policy design including capturing business and technical requirements for configuration, validating program design, and approach.
- Testing and pilot with training, including, reference materials, user guides, and FAQs.
- Roadmap, change management plan, and communication plan that raises the awareness within your organization.

Why Lighthouse?

With deep expertise in legal advisory and a trusted Microsoft partner, we can help you take advantage of modern workplace technology with confidence.

PROACTIVE STRATEGY	PROVEN EXPERTISE	ELITE PARTNERSHIP
Our specialized teams keep pulse on changing technology, hyper-focused on both the technical implications and legal, compliance, and regulatory impacts to provide preemptive solutions evolving your organization's information governance, compliance, and eDiscovery programs.	With more than 25 years of information governance, compliance, and eDiscovery experience, we provide comprehensive strategies and best practices to ensure your programs surpass stringent legal and compliance requirements while reducing risk and costs.	Lighthouse is the premier Microsoft partner for information governance, compliance, and eDiscovery. Our deep-seated partnership with Microsoft is built on trust and a more than 20-year collaboration, resulting in exclusive access to product insights and roadmaps.

For 25 years, Lighthouse has been a leader in innovative software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams. Whether reacting to incidents like litigation or governmental investigations or designing programs to proactively minimize the potential for future incidents, Lighthouse partners with multinational industry leaders, top global law firms, and the world's leading software providers as a channel partner.
