

Transformamos la comunicación interna

Redinapp

Permite a las organizaciones y sus colaboradores estar más cerca, más informados y más conectados.

Qué ofrecemos:

Con Redin los usuarios pueden acceder a noticias, calendarios y directorios de contacto, tal como funciona una intranet, pero con todas las ventajas de lo móvil, incluyendo información perfilada y notificaciones. También se integra con las soluciones de RR.HH. para incorporar información relevante y actualizada.

Usa Redin para:

- Comunicar información relevante para toda la organización o sólo a áreas específicas por ubicación, perfil o función.
- Notificar a las personas de la organización acerca de eventos imprevistos.
- Informar beneficios a los colaboradores y notificarlos cuando se sumen nuevos.
- Ofrecer información de capacitación.

Redin es una solución que está en Azure y se integra con la suite de Office 365, utilizando el Active Directory de tu compañía.

Qué dicen nuestros clientes:

"Se trata de una herramienta fundamental para la gestión de la comunicación con las personas que trabajan en la institución, sobre todo en el contexto de la pandemia y el teletrabajo"

– Felipe Lozano, Banco Central de Chile

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
