

Open edX Learning Management System with Azure

Optimize the power of Open edX through Azure with Skill-Up Technologies

The Open edX learning management system (LMS) is already used by some of the world's most successful educational institutions and organizations, including Google, Microsoft, Tesla, and Boston University. However, its popularity with smaller organizations is also exploding, enabling them to create high quality, customized learning content that can transform the profitability of their business.

- ✓ Fast deployment
- ✓ Future-proofed learning
- ✓ Improved employee performance
- ✓ Enhanced workplace culture
- ✓ Reduced training costs

- Powerful reporting & analytics
- Fully integrated solutions

Why Open edX with Azure?

- Highly scalable, proven cloud platform • Trusted, secure & compliant
- Enables rapid deployment • Fully supports bespoke applications • Offers data backup & disaster recovery

Open edX LMS with Azure by Skill-Up Technologies

We offer a range of services to help you get up and running quickly with a tailored learning management system that meets your business's needs.

Installation of the Open edX Learning Management System (LMS)

We can configure and install a company-branded and customized Open edX instance in a distributed environment on Azure for you.

Managed Services for the installed Open edX LMS

This includes the upkeep, maintenance, and support of your platform, plus platform upgrades, backups, security monitoring, and more.

Customization of the Open edX LMS

Customizations vary according to requirements. Examples include ecommerce, Azure Media services Xblock installation, and workflow changes.

Integration of Open edX with third party solutions

Integrations vary according to requirements. Examples include SSO integration with other LMS/platforms e.g. Canvas, and content integration using LTI integration as well as API integrations.

Training

We can provide training in the content management system to authors and administrators.

Additional consulting services

We offer consulting on lifecycle learning strategies and methodologies. We also provide content creation and learning support services such as instructional design, video production, mentoring, and much more.

We know how to optimize the power of Azure to get the best out of Open edX. Chat with us today to find out more.
