# Exchange Migration to M365

## All Covered – IT Services from Konica Minolta

Exchange Migration to M365 Offer  
Overview

## Exchange Migration to M365

### Objective

All Covered's O365 migration project team can help plan and execute your move to Microsoft 365. Let our expert engineers guide you through a smooth transition without losing a single email. It's the last email migration project you will ever have to do!

### Process

By migrating your current on premises Exchange to M365, you will lessen the burden of maintaining on premises hardware. With a move to M365, you will no longer have to worry about upgrading your email servers and eliminate any security concerns with your on premises Exchange servers.

All Covered's Professional Services team can help by:

- gathering initial requirements
- reviewing existing environment/platform
- synchronize AD user accounts with Microsoft 365
- pilot a test group of mailboxes for acceptance testing
- migrating batches of users
- guide end users with reconfiguring mobile devices
- project management

Why Choose All Covered's Consulting Services?

- Certified Expertise
- Competitive Edge
- Innovative Solutions
- Stay Focused on Core Business Needs
- Learn from the Experts
- Save Money

### Example of Mail Migration Batches:

Name	Status	Data consistency score	Percentage synced	Total	Synced	Finalized
C:\Users_AllUsers	Completed	Investigate	100	239	239	239
xamlite_Remaining	Completed		100	2	2	2
