

App Modernization Assessment

Reduce legacy costs and extend application reach while driving innovation

Partnering with Microsoft, **Neudesic offers a 6-week assessment** to provide your organization with a holistic approach of evaluating your application estate with an in-depth identification and analysis of up to five applications for migration to Azure. **The Application Modernization Assessment comes with funding to help support the engagement and includes:**

APPLICATION PORTFOLIO RATIONALIZATION

Analyze your entire portfolio and identify up to five apps for modernization

MICROSOFT AZURE & CLOUD PROFILING

Create a modernization plan and provide real-time data on server and app performance

APPLICATION MODERNIZATION

Leverage performance reporting to drive end-of-life transitions and product innovation

OUTCOMES FOR YOUR ORGANIZATION

At the end of the engagement, we provide your organization with an in-depth analysis for migration of up to five applications, which includes:

- App Estate rationalization
- Identification and prioritization of up to 5 apps for migration
- Reference architecture design
- Detailed migration plan
- CAF governance analysis & DevOps recommendations for prioritized apps
- Azure cost consumption estimates
