

Microsoft Viva Connections Go Fast

What's it about?

Microsoft Viva Connections is your gateway to a modern employee experience – get ready to inform, engage and empower your organisation. A modern SharePoint Online intranet is the key dependency for Viva Connections.

We've designed 'Microsoft Viva Connections Go Fast' specifically for organisations who already have a modern SharePoint Online intranet to plan for and implement Viva Connections.

Design and Discovery

We'll conduct a series of workshops to gather your requirements and work with you to prioritise the project scope. With this knowledge, we'll then provide 5 high fidelity mock-ups to ensure you are confident with what will be delivered.

Configure and implement Viva Connections

We'll provide you a release package containing all your artefacts ready for deployment, together with an end user guide to support non-technical users in getting the most out of the solution.

Solution Roadmap

To support your product launch, we'll provide you a roadmap of recommended activities, realistic timelines, effort and dependencies to ensure that you are well equipped for a smooth and successful go-live.

"Working with Engage Squared as our partner, we've really felt like they're our trusted advisors – and I don't think we would have got to that level of adoption, and training, and support without Engage Squared being there on that journey with us. Especially during Covid-19"

Dee Eldridge, Digital Workplace Manager, Bupa
