

AZURE MIGRATION ASSESSMENT

LET THE ALL COVERED CLOUD EXPERTS HELP PLAN YOUR AZURE CLOUD SOLUTION

THINKING ABOUT MIGRATING TO AZURE?

All Covered can evaluate your applications and infrastructure to provide a recommendation on how to migrate your systems to Azure. Configuring a functioning environment in Azure requires more than just server specifications and storage, and we will advise you on which Azure resources you need.

All Covered can help identify the specific Azure services and components to complete your environment. Recommendations will also be provided for right-sizing resources running in Azure.

We will work collaboratively with you to develop an Azure migration strategy which minimizes downtime and promotes cloud best practices.
