Viva Platform

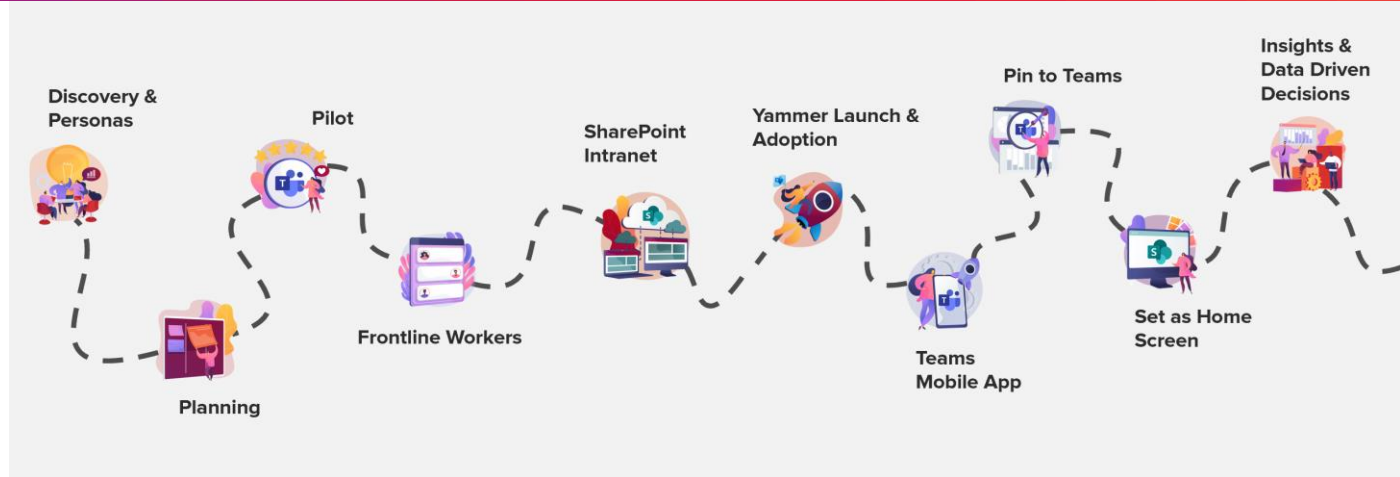

The pandemic has forced so many of our clients to work in new and wonderful ways; adapting to the new ways of working has never been easier with Viva.

Viva gives your employees the tools that make their new normal easier; for example, Viva insights gives employees access to Protect Time which lets them book out time in your schedule to do work, Virtual Commute reminds you when to log off at the end of the day and My organization allows you to add working hours to an email signature to let everyone know when you are available.

At WM, we put your employee's experience front and center of everything we do. All employees, no matter their role, should feel that the technology provided to them helps make their experience easy, whether that is accessing relevant news, knowledge they need for every day or how to engage in learning.
