

VIDEO ANALYTICS

Gain actionable insights on live event performance

Understand trends in every aspect of your video communications to improve performance and ensure a seamless and impactful video experience for all employees.

ENGAGEMENT

Granular audience & engagement statistics

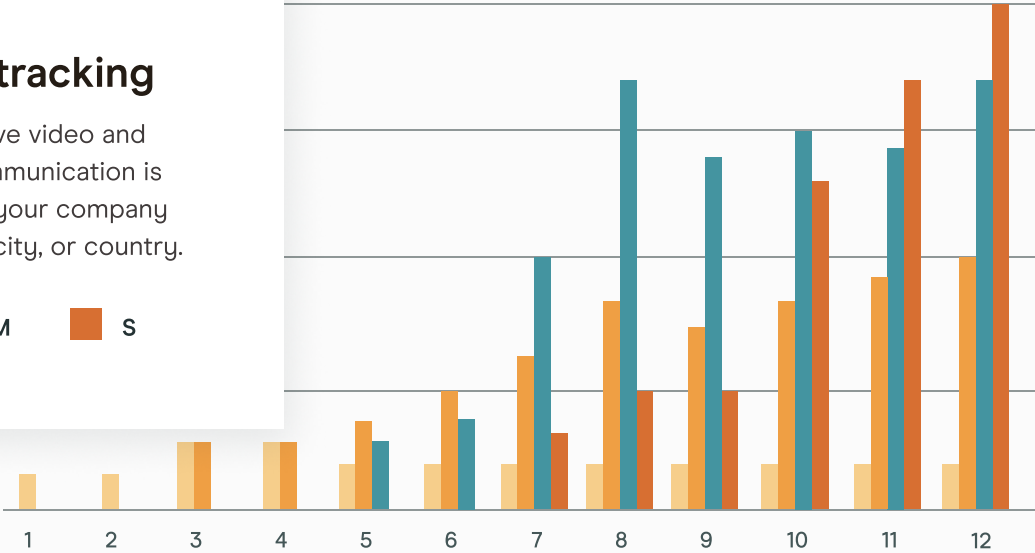

Understand exactly how your VOD and live video events are performing across networks, and how they engage your employees across date ranges, locations, platforms, and more.

TRENDS

Video adoption tracking

Track the impact of your live video and VOD. Understand how communication is engaging each division of your company over time by team, office, city, or country.

INTEGRATIONS

Integrated video stack

Create the perfect video streaming stack. Hive integrates seamlessly with every leading enterprise Video Communication Platform and supports the use of multiple solutions, simultaneously.

Microsoft

Pioneering cloud-based applications for live communications and VOD content storage & management.

Global Meet

PGI's DIY, cloud-based, enterprise-grade webcasting service focused on finance.

Workplace

Hive is pre-integrated with Workplace and is already working in the background to make live video broadcasts more efficient in select SKUs.

30+ more

We are always adding integrations that adhere to our top quality standards.

EXECUTIVE REPORTS

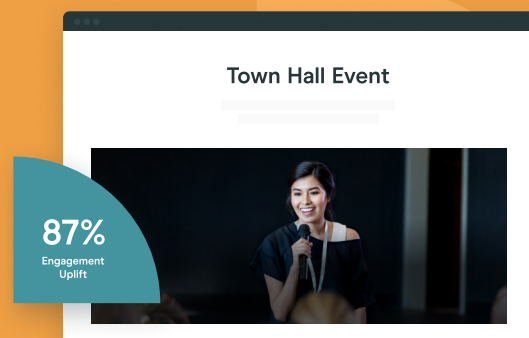

Customized reporting for executives

Tailor post-event performance reports to the exact needs of your C-suite. Access an interactive online version of your customized Executive Dashboard or export it in PowerPoint, Excel, or PDF.

FRAMEWORK

Zero-installation activation

Unlock deeper insights and optimize your video experience with our ready-to-go WebRTC plugins. Hive is already integrated with your video platform of choice—no installation, no hassle.

QOE

Quality of Experience insights

Identify weak links and avoid common streaming issues by preempting them. Hive enables you to pinpoint where Quality of Experience should be improved across your network.

FEATURES

More monitoring, tracking, and reporting

Aggregated metrics

Review participation, quality, timestamps, stream performance, network impact, and more all from one place. Go back in time to explore historical trends.

Ranking lists

Order information by location, viewership size, and other detailed queries. Sort data to determine what areas of operation need the most attention.

Advanced filtering

Scan through graphs and maps to understand performance sorted by geography, site, and QoE. Hover over charts for greater detail.

GDPR compliant

European viewers can enjoy full GDPR privacy compliance across the breadth of their live video and VOD experiences.

We are very happy with our decision to deploy Hive Streaming. The results are beyond our expectations and, as a result, we are confident in Hexion in embracing video communications internally leveraging Office 365 and Microsoft Teams.

Dennis Ryan, Vice President & CIO
