

Expert Guidance to Improve Organizational communication and End User Experiences

Intranet Modernization Workshop

Improve Business Communication and Outcomes

The Intranet Modernization Workshop assists Organizations in modernizing and/or building an intranet with modern features and capabilities in order to achieve better business outcomes.

CDI utilizes in-house expert resources, demonstrations, and existing customer tools, to provide workshop participants with an understanding of intranet capabilities while assisting them in soliciting additional organization feedback and planning deployment of their new modern intranet.

Activities Include:

- Review of Organization Current Intranet (as applicable)
- “Art of the Possible” Modern intranet demonstration.
- “Optimal Modern Intranet” discussion with Project Stakeholders
- Use of Existing Microsoft tools for additional Organizational feedback
- Prioritization of identified Modern Intranet use case scenarios.
- Documentation of Findings, Recommended Deployment Roadmap with Q&A session for all deliverables.
