

MAQ Software

Bring the Power of AI to Data Visualization

About Us

MAQ Software delivers innovative software solutions for Fortune 500 companies. Using the latest agile engineering techniques in a focused and disciplined manner, we accelerate software initiatives that enable our customers to transform their industries. We serve customers in multiple industries including technology, retail, energy, and healthcare. We focus on Data Analytics, Artificial Intelligence (AI), Machine Learning (ML), Data Modernization, Reporting & Visualization, Business Application, Modern Apps and Cloud Services at our four state-of-the-art engineering centers located in Washington state in U.S and India. We help our clients build stronger customer relationships, drive sales, identify new opportunities, and analyse marketing results.

Our customers consistently recognize us for providing architecture and governance frameworks, implementing best practices to optimize reports, and building team capability through training programs. Our customers benefit from daily software updates, agile practices, domain expertise, and quickly implemented feedback.

Competencies

Business Application

Delivered numerous enterprise line-of-business applications that replaced complex processes through automation and innovative utilities using Dynamics 365 and Power Apps.

Data Modernization

Modernized applications and data across the customer organization leveraging Microsoft Azure Services, making it discoverable, trustworthy, understandable, and trackable.

Reporting & Visualization

Developed executive reports & dashboards for enterprises harnessing culture of data driven insights. Contributed 40 custom visuals to Power BI community through AppSource.

Modern Apps and Cloud Services

Implemented several enterprise-scale, modern, and accessibility-friendly solutions using micro services architecture.

Analytics: ML & AI

Enabled enterprises to uncover actionable insights from their data by building transparent, reliable, and interpretable ML & AI

Power BI Expertise

Since the launch of Power BI, we have been leaders in the Power BI community. As 2021 Power BI Partner of the Year, we enable leading companies to accelerate their business intelligence and analytics initiative. We are the largest 3rd-party publisher of certified Power BI visuals on AppSource and a Power BI Preferred Partner. The Microsoft Power BI team has reviewed and certified 33 of our custom visuals.

Services Offered

Migration

With our proven migration strategy, we seamlessly migrate the reports from platforms like Tableau, MicroStrategy, Qlik and more to Power BI.

Optimization

Our exclusive performance analysis tools quickly identify problem areas and reduce report load time by an average of 50%.

Adoption

We will help you adopting a new platform and train your teams with Center of Excellence delivered by our team of certified engineers.

Governance

Our governance solutions enable you to improve report security, increase adoption, and scale your plan to ensure you aren't spending more than you need to.

Consulting

We provide Consulting services based on our offerings mentioned above, where we will create customized solutions for your problems.
