Power of 3 and Center of Excellence (COE)

Build 3 Power Apps and Center of Excellence

Neudesic will show you how to build a COE in your organization.
This will drive innovation and improvement and bring together teams with similar business goals to share knowledge and success, while at the same time providing standards, consistency, and governance to the organization.

WHAT IT IS

Our 4-week assessment will empower your teams on how to build a Power Platform COE. We have a collection of best practices and prebuilt components and tools that are designed to help you get started with developing a strategy for adopting and supporting Microsoft Power Platform, with a focus on Power Apps, Power Automate, Power Portal and Power Virtual Agents.

- **Interviews with people, process, program and platform across the enterprise**
- **Workshops and guidance on how to gain insights into your Microsoft Power Platform**
- **Best practices and components that establish audit and compliance processes**
- **Accelerate your adoption by nurturing a community of makers**

CLIENT OUTCOMES

- Develop up to three Power Applications Pilots into Production
- Discover how a Microsoft Power Platform COE can take ownership of Microsoft Power Platform administration, nurturing, and operations support
- Build three pilots to start your journey in Power App adoption
- Understand about Admin and Governance tools for Administrators, IT Professionals, Power Users, and Makers
- Evaluate Platform Extensions and how to manage them using Templates and customizations
- Implement the Power Platform COE and recommended Next Steps
