

Check Point Harmony Email & Collaboration: Gartner Peer Insights Customers' Choice for Email Security for Microsoft 365 and Gmail

THREATS

PHISHING

Check Point Harmony Email & Collaboration's patented, API-based inline email security uses cutting-edge Artificial Intelligence (AI) and machine learning, combined with human input from end-users and trained researchers, to catch the evasive attacks that get through other default and advanced security layers.

ZERO-DAY MALWARE & RANSOMWARE

Multiple real time malware, sandboxing, and A.I. active-content analysis tools work in parallel to identify malicious content in less time and with fewer false positives than any single product alone.

ACCOUNT TAKEOVER / INSIDER THREAT

Check Point Harmony Email & Collaboration analyzes every user event across multiple SaaS, comparing historical behavior, anomalous activity, and profiles of real-world

DATA SECURITY

DATA LEAK PROTECTION

Identify confidential data using industry leading tools. Enforce regulatory compliance (PCI, HIPAA, SOX, etc.) across all your SaaS with cloud-aware, context-sensitive, policy work flows.

POLICY-BASED ENCRYPTION

Automate the encryption of sensitive files - whether shared internally, via email, or public share - without deploying new infrastructure, using the protocols you already know and trust.

IRaaS

SHADOW IT

Every time a user reports a suspicious email or asks to have a quarantined email released, the request goes to our highly trained team of experts, who remediate the request in as little as five minutes.

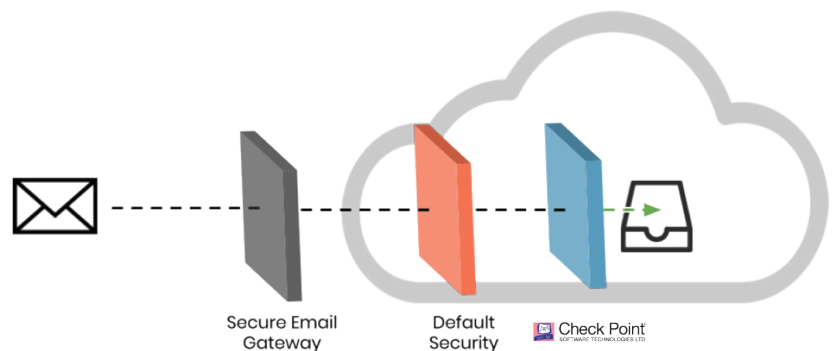

ALWAYS-ON

Check Point Harmony Email & Collaboration correlates user and file events from all SaaS, combining them with real-time reports of the security stack, so you can monitor the cloud with your existing SIEM.

**Check Point Harmony Email & Collaboration
 does exactly what it says it will do.
 It's an easy button for email security!"**

— Tech Supervisor, Government

Check Point Harmony Email & Collaboration offers complete, defense-in-depth security for Microsoft 365 and G-Suite, and extends to the full collaboration environment, including file sharing and chat, as well as Slack and Microsoft Teams.

Scan every inbound, outbound and internal email. Prevent phishing and malware from spreading within your organization or to your customers and partners.

Check every file for malicious content using the most advanced sandboxing and active-content analysis in the industry. Quarantine threats before your users download them

Identify confidential information and apply context-aware policies that confine the data to a particular organization or work group. Your users can leverage the full power of collaboration tools, while automated work flows enforce regulatory compliance, ensuring PCI, HIPAA, PII, or other protected content does not leak.

Check Point Harmony Email & Collaboration ensures seamless security. Deploy instantly with the only one click, cloud-enabled platform, with no need for a proxy, appliance or endpoint agent.

Catches the advanced attacks that evade default and advanced security tools.

ADVANCED ANTI-PHISHING BUNDLE

Anti-phishing for Office 365 or G Suite email.

- SmartPhish Anti-Phishing Account
- Takeover Protection
- Configuration Security
- URL Clicktime Protection
- Policy Enforcement
- Shadow IT

COMPLETE MALWARE BUNDLE

Anti-phishing and advanced malware protection for Office 365 email, OneDrive and Sharepoint, G Suite Gmail and GDrive, Slack, Box, Dropbox, Citrix ShareFile or other collaboration apps.

Includes everything in Advanced Anti-Phishing bundle plus:

- **Malware Sandboxing**

FULL-SUITE PROTECTION BUNDLE

Anti-phishing, advanced malware and data protection for Office 365 email, OneDrive and Sharepoint, G Suite Gmail and GDrive, Slack, Box, Dropbox, Citrix ShareFile or other collaboration apps.

Includes everything in Complete Malware bundle plus:

- **Data Loss Prevention**
- **Encryption for Office 365**

"I've looked at other options. Check Point Harmony Email & Collaboration was far and away my number one choice. It was a no-brainer for me and I'm happy to have it."

— CTO, Education

Check Point Harmony Email & Collaboration Secures Your Entire Suite

Secure the entire cloud suite in applications like OneDrive, Sharepoint, Box, Slack and Microsoft Teams. Check Point Harmony Email & Collaboration protects all mail with cloud prefilters and post-delivery capabilities that neither users nor hackers know is there.

Business Friendly Data Security

Check Point Harmony Email & Collaboration empowers you to create and automate universal policies across multiple cloud applications to control how files are shared amongst internal and external users. Our advanced tools identify and mark files containing confidential, financial, and personally identifiable information.
