

Manage and Investigate Risk Workshop

Intelligently identify and take action on insider risk.

Key Use Cases

DOCUMENT

Document objectives and strategy around insider risk.
Investigate insider risks.

DEMONSTRATE

Demonstrate how Microsoft 365 can accelerate insider risk mitigation.

RECOMMENDATIONS

Provide actionable next steps based on your needs and objectives.

Uncover and mitigate risk in your organization

For the majority of organizations, external cybersecurity risks have been top of mind for many years. But these organizations are now considering the risks posed by trusted insiders as an equal or even bigger threat. Organizations are beginning to recognize the importance of establishing controls that enable them to quickly identify and manage insider risks.

Detect, investigate, and act on malicious and inadvertent activities in your organization is critical to ensuring trust, creating a safe workplace and protecting company assets.

The Manage and Investigate Risk Workshop gives you the insights you need to understand insider risk in your organization. The workshop includes a User Risk Check. User Risk Check leverages automated Microsoft 365 tools and services to monitor user behavior and communication to discover inadvertent or malicious behavior that can impose risk to your organization.

Lighthouse helps you uncover hidden risk in your environment

This workshop brings together legal and compliance with IT for an actionable go-forward plan. This dynamic workshop provides:

- The User Risk Check that includes findings and insights from the automated discovery process.
- A list of recommendations and actionable next steps to mitigate the identified risks.
- Clear look into Microsoft's approach to mitigating and controlling insider and regulatory risks.
- Data Protection Baseline assessment report that provides suggestions and top improvement actions.
- A set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps.

Why Lighthouse?

With deep expertise in legal advisory and a trusted Microsoft partner, we help organizations take advantage of modern workplace technology tools.

PROACTIVE STRATEGY

Our specialized teams keep pulse on changing technology, hyper-focused on both the technical implications and legal, compliance, and regulatory impacts to provide preemptive solutions evolving your organization's information governance, compliance, and ediscovery programs.

PROVEN EXPERTISE

With more than 25 years of information governance, compliance, and ediscovery experience, we provide comprehensive strategies and best practices to ensure your program surpass stringent legal and compliance requirements while reducing risk and costs.

ELITE PARTNERSHIP

Lighthouse is the premier Microsoft partner for information governance, compliance, and ediscovery. Our deep-seated partnership with Microsoft is built on trust and a more than 20-year collaboration, resulting in exclusive access to product insights and roadmaps.

For 25 years, Lighthouse has been a leader in innovative software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams. Whether reacting to incidents like litigation or governmental investigations or designing programs to proactively minimize the potential for future incidents, Lighthouse partners with multinational industry leaders, top global law firms, and the world's leading software providers as a channel partner.
