

# Lighthouse Manage & Investigate Risk Workshop

---

## Industry Challenges

While many organizations have purchased Microsoft 365, many are not harnessing the full power of the platform.

In-house Legal and Compliance departments struggle to adopt, deploy, and manage Microsoft 365 features designed to support their programs.

Deployment is a traditional IT-driven where legal and compliance are not typically engaged until the end of the process.

Deep subject matter expertise is needed in both platform functionality and organizational requirements to help corporations operationalize Microsoft 365.

# Manage and Investigate Risk Workshop

Intelligently identify and take action on insider risk.

## Key Use Cases

### DOCUMENT

Document objectives and strategy around insider risk. Investigate insider risks.

### DEMONSTRATE

Demonstrate how Microsoft 365 can accelerate insider risk mitigation.

### RECOMMENDATIONS

Provide actionable next steps based on your needs and objectives.

# A Workshop Designed For Results

## Discover, protect, and govern your corporate data

The need for privacy, security, and data compliance are growing exponentially as online data sources increase. The first step for Compliance and IT leaders is to be able to identify what data is present and where it is located.

As strategic partners, Lighthouse and Microsoft provide visibility and expertise, showing you how to use Microsoft 365 technology to develop and implement a simplified compliance strategy for long-term data protection and security.

## Workshop designed for your Legal, Compliance and IT staff

This workshop brings together legal and compliance with IT for an actionable go-forward plan. This dynamic workshop provides:

- The User Risk Check that includes findings and insights from the automated discovery process.
- A list of recommendations and actionable next steps to mitigate the identified risks.
- Clear look into Microsoft's approach to mitigating and controlling insider and regulatory risks.
- Data Protection Baseline assessment report that provides suggestions and top improvement actions.
- A set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps.

# Customer Study

## Customer Challenge

A multi-national manufacturing company needed a compliance strategy as their company's growth resulted in an increasing amount of data ranging from documents and emails to videos, images, and more.

To further complicate matters, there was little collaboration between all involved teams; Legal, Compliance, Security, IT, and HR. The company struggled with understanding and responding to data inquiries.

## Solution & Results

This workshop created a long-term strategy that minimized risk and helped bring the Legal, Compliance, Security, IT, and HR teams together towards the common goal of information governance. Lighthouse brought all the constituents together and educated the teams involved.

Leveraging Microsoft 365 tools, Lighthouse was able to help the customer tailor an information governance policy. The company now has an end-to-end data lifecycle that provides for ongoing assessments and reviews to manage risk. They now have clear information definition to drive value from their data assets.

### At-a-glance

**Lighthouse Customer**

**Customer Size:** Large global company with over 45,000 employees

**Country:** EMEA

**Industry:** Manufacturing

**Products and Services:** Microsoft 365, Lighthouse Manage and Investigate Risk Workshop

# Why Lighthouse?

With deep expertise in legal advisory and a trusted Microsoft partner, we can help you take advantage of modern workplace technology with confidence.

## PROACTIVE STRATEGY

Our specialized teams keep pulse on changing technology, hyper-focused on both the technical implications and legal, compliance, and regulatory impacts to provide preemptive solutions evolving your organization's information governance, compliance, and eDiscovery programs.

## PROVEN EXPERTISE

With more than 25 years of information governance, compliance, and eDiscovery experience, we provide comprehensive strategies and best practices to ensure your programs surpass stringent legal and compliance requirements while reducing risk and costs.

## ELITE PARTNERSHIP

Lighthouse is the premier Microsoft partner for information governance, compliance, and eDiscovery. Our deep-seated partnership with Microsoft is built on trust and a more than 20-year collaboration, resulting in exclusive access to product insights and roadmaps.

For 25 years, Lighthouse has been a leader in innovative software and services to manage the increasingly complex landscape of enterprise data for compliance and legal teams. Whether reacting to incidents like litigation or governmental investigations or designing programs to proactively minimize the potential for future incidents, Lighthouse partners with multinational industry leaders, top global law firms, and the world's leading software providers as a channel partner.
